Betsy:

Thank you for getting back to me on the question of a site visit. Unfortunately, travel this week for me is not an option. However, would it be possible to visit the site Tuesday morning September 23rd?

Thank you for your help,

Robert

Hi Robert,

I'd be happy to meet you on site this week. I need to start the process of implementing the federal cleanup at the site this week. The site presents a significant threat to human health and the environment, and we need to begin the process of getting it cleaned up.

Feel free to call me if you would like to discuss.

Thanks,

Betsy

Subject: Alreco Metals Site, Benton Harbor, Michigan - Site Visit

Ms. Nightingale:

I have been asked by Alcoa Legal Department to visit and tour the Alreco Metals Site in Benton Harbor, Michigan next week. Unfortunately, my schedule next week is tight. I could fly out on Sunday night and meet with you or your representative on site Monday morning, September 15th for the sake of urgency. However, my time on site might be somewhat limited because of my need to be back in Knoxville Tennessee Tuesday morning. My schedule is much better the following week and I would like to suggest a potential site visit on September 23 or 24. Please advise me if any of these dates work? If you have any questions, please call me at 865-207-6722.

Robert Prezbindowski
